

Ambient Air Monitoring Network Design

The following is the agenda for our March 15, 2006 Ambient Air Monitoring Network Design. As announced in our earlier email, this workshop is designed to provide a basic understanding of the principles, requirements and limitations of ambient air monitoring and a common basis for groups and individuals who wish to provide comments and input to the Air Program review of the ambient monitoring network. This workshop will be held at the SC Archives and History Center in Columbia.

10 AM to 12:30 PM: Session one

Introduction

What, why, and how we monitor

Elements of network design and review

12:30-1:45: Lunch

1:45 PM to 2:45 PM: Session two

Tim Hanley (US EPA, OAQPS), will speak on the proposed changes to 40CFR Parts 53 and 58 "Revisions to Ambient Air Monitoring Regulations" and its impact on required monitoring.

2:45 PM to 4:30 PM: Session three

Practical considerations in network design

Closing – path forward for the monitoring network review

Please e-mail Renee Baecker at BAECKERR@dhec.sc.gov your plans to attend our workshop, or contact me if you have any questions.
